- **Sacramento District**
- **Alaska District**

FY14 Schedules

CORPS/Dredging Contractors Partnering session (Q&A)

- Hurricane Sandy impacts on dredge work load (dredge availability & lessons learned)
- West Coast Hopper Contract Coordination - 2013 (lessons learned)
- Sediment Testing (Geotechnical) for dredging
- Emergency Dredging response planning and capacity (There have been several recent cases on the east coast where the dredging community responded to emergency needs. How are we set to respond in the event of a significant emergency on the west coast - where is the equipment located and what is our overall capability.)
