LIST OF PRESENTERS	ix
LIST OF EXHIBITORS	xi
FOREWORD.....	xvii
THIRTY-EIGHTH TEXAS A&M DREDGING SEMINAR:	
<i>Real Time Sediment Plume Tracking for Compliance Monitoring During Dredge and Disposal Operation</i>	
C. Albro, A. Mansfield, and L. Lefkovitz.....	1
<i>Resuspension Monitoring during Remedial Dredging in One of America's Most Polluted Rivers</i>	
M. Bilimoria, L. Baron, R. Chant, T. Wilson, E. Garvey, and A. Burton	17
<i>Modeling Dredge-Induced Suspended Sediment Transport and Deposition in the Taunton River and Mt. Hope Bay, Massachusetts</i>	
J. Swanson and T. Isaji	37
<i>Real-Time and Near Real-Time Internet Monitoring of Dredging Operations and Production</i>	
M. Wakeman, S. Pace, and A. Douglas	57
<i>Plan for National Implementation of Silent Inspector</i>	
G. Howell, J. Rosati, and E. Russo	69
<i>Underwater Grading – A New Method for Berth Maintenance at the Port of Portland</i>	
M. Hermans, W. Haynes, M. Harrison, and J. Hawkins.....	77
<i>Reduction of Hurricane Impact by Re-creation of Marshlands and Barrier Islands</i>	
C. Otten and P. Bakker	91
<i>Creation of Artificial Reef Structures Using Dredged Rock from NY/NJ Harbor Deepening Projects</i>	
S. Knowles, S. Pace, W. Figley, A. Gregory, J. Carlson, M. Wakeman, and A. Douglas	109
<i>Impacts of Evolving Shipping and Vessel Characteristics on Berth Maintenance Dredging</i>	
M. Hermans and S. Degens.....	119
<i>The Positive Impact of Polymers on Sediment Treatment and Handling</i>	
D. Hunter, M. Heard, and K. Baron.....	131
<i>Marine Log Transfer Facilities and Wood Waste: When Dredging Is Not Your Final Answer</i>	
J. Germano and D. Browning.....	147
<i>An Evaluation of Overdepth Dredging and Its Engineering and Environmental Implications: Case Studies from the Northeast</i>	
J. Tavoraro and S. Weinberg	167
<i>Quantification of Sediment Concentrations and Fluxes from ADCP Measurements</i>	
J. Aardoom	179

TABLE OF CONTENTS

THIRTY-EIGHTH TEXAS A&M DREDGING SEMINAR:

<i>Numerical Modeling Studies Supporting Nearshore Placement of Dredged Material from the Savannah River Entrance Channel</i>	
J. Gailani and S. Smith	197
<i>The Digging and Holding Capacity of Anchors</i>	
S. Miedema, J. Kerkvliet, D. Strijbis, B. Jonkman, and M. Hatert.....	213
<i>Environmental Dredging Versus Shoreline Stability</i>	
M. Otten	227

WESTERN DREDGING ASSOCIATION

TWENTY-SIXTH ANNUAL TECHNICAL CONFERENCE:

<i>Dredged Material Management in a Watershed Context: Seeking Integrated Solutions</i>	
C. Vogt, B. Holiday, E. Kim, and M. Madden	239
<i>Control of Resuspended Sediments in Dredging Projects</i>	
N. Francingues and D. Thompson	243
<i>The New York and New Jersey Harbor: Achieving the Vision of a World Class Harbor Estuary</i>	
W. Slezak and T. Costanzo	255
<i>A Proposal for Innovative Sediment Decontamination Technologies Using a Cross Program – Cross Media Business Model</i>	
E. Stern, K. Jones, S. Douglas, and H. Feng.....	267
<i>Suspended Sediment Plumes Associated with Knockdown Operations at the Port of Redwood City, California</i>	
D. Clarke, A. Martin, C. Dickerson, K. Reine, and D. Moore	277
<i>Environmental Dredging Pilot on the Lower Passaic River: One of America’s Most Polluted Rivers</i>	
S. Thompson, L. Baron, M. Bilimoria, P. Weppler, and D. Hayes	297
<i>Design of the Campbell Shipyard Sediment Remediation Project, San Diego, California</i>	
T. Wang, M. Whelan, D. Keith, J. Verduin, and P. Brown	309
<i>Construction of the Campbell Shipyard Sediment Remediation Project, San Diego, California</i>	
M. Whelan, T. Wang, J. Verduin, E. Berschinski, M. Akhavian, and W. Melton	323

WESTERN DREDGING ASSOCIATION	
TWENTY-SIXTH ANNUAL TECHNICAL CONFERENCE:	
<i>Design Sequence for Environmental Dredging</i>	
M. Palermo	335
<i>East Waterway Harbor Island Superfund Site Cleanup – Cleaning Up the Environment, While Improving Commerce for the Port of Seattle</i>	
R. Sanga	343
<i>Exploring Relationships in a Sediment-Tissue Bioaccumulation Database</i>	
T. Fredette, O. Guza, C. Farris, L. Lefkovitz, and S. Naber	349
<i>Use of X-Ray Fluorescence (XRF) and Immunoassay Rapid Sediment Characterization Results from Two Sites</i>	
J. Hardin, T. Himmer, G. Durell, and H. Thurston	363
<i>Long Term Stability of Capped Dredged Material Disposal Mounds: Stamford New Haven North and Cap Site 2 in Long Island Sound</i>	
D. Carey, D. Lewis, S. Wolf, M. Greenblatt, and T. Fredette	389
<i>Contaminated Sediments Successfully Removed and Capped, Enabling Waterfront Development in Buffalo, New York</i>	
J. Finn and M. Hofferbert	411
<i>Ward Cove Sediment Remediation Project Revisited: Long-Term Success of Thin-Layer Placement Remedy</i>	
M. Herrenkohl, L. Jacobs, J. Lally, G. Hartman, B. Hogarty, K. Keeley, J. Sexton, and S. Becker...	421
<i>A 22 Year Record of Dredged Material Monitoring: Results from the Field Verification Program (FVP) Mound in Long Island Sound</i>	
P. Myre, J. Germano, D. Carey, and T. Fredette	433
<i>Stability and Recovery of Capped In-Channel CAD Cells: Boston Harbor, Massachusetts</i>	
S. Wolfe, M. Greenblatt, T. Fredette, D. Carey, S. Kelly, R. Diaz, P. Neubert, I. Williams, and J. Ryther.....	451
<i>Water Management During Mechanical Dredging of Contaminated Sediment</i>	
P. Fuglevand and R. Webb	461
