

# THE 5th CHINA INTERNATIONAL CONFERENCE ON DREDGING TECHNOLOGY DEVELOPMENT

Tianjin, China

25~27 September 2017

## THE SECOND ANNOUNCEMENT

### Call for Papers

Members of World Organization of Dredging Associations and  
China Dredging Association,

Dredging is a basic activity for industrialization, urbanization, modernization and ecological civilization construction. Since the new century, dredging has played a positive role in economic development, social progress and improvement of people's lives. At present, in the face of global economic structural adjustment and new technological revolution impact, China and the world's dredging industry need to promote comprehensive changes and innovations focusing on the major themes of market demand changes, sustainable development and building a new ecosystem. This is the common interest and goal of the dredging industry.

In order to promote communication and technological innovation of the dredging industry, China Dredging Association, with the support of the Eastern Dredging Association, is tentatively scheduled to hold the 5<sup>th</sup> China International Dredging Technology Development (Exhibition) Conference from September 25th to 27th 2017 in Tianjin, one of China's municipalities directly under the central government and an important economic and port cities in northern China.

**The theme of the conference is Ecology, Dredging, Sustainability.**

The conference includes summit forums, keynote speeches, technical academic paper exchanges and seminars. We will also visit Tianjin Port - China's largest artificial deep water port - to witness one of the major dredging outcomes of China.

For this purpose, we warmly welcome the following: members of World Organization of Dredging Associations and the member companies of China Dredging Association; papers provided by experts, scholars, engineers and technicians of the dredging industry; products and technology exhibitions by the dredging industry-related business organizations. Please contact us and register in time. For further notice, please visit the websites of the Eastern Dredging Association and the China Dredging Association.

#### **I. The theme and main content of the conference**
